Scoring

8 to 10 healthy. 5 to 7 needs targeted fixes. Below 5 rebuild from templates.

Most common fixes (in order of frequency)

- Too long. Trim to 2 to 4 sentences. Long replies signal defensiveness.
- Implicit patient confirmation ('your visit last Tuesday'). Strip every dated detail.
- Treatment named ('the Botox you had'). Never. Strip every clinical noun.
- No offline contact path. Add one phone or email line.
- Argued in public. Cut every sentence that contradicts the reviewer.
